

## ABOUT THE MEDICAL UNIVERSITY OF BIALYSTOK

The Medical University of Białystok (MUB) is a public higher education institution, established in 1950.

The University includes 82 basic science departments, 51 clinical departments, 4 interdepartmental divisions, and 7 independent laboratories.

Today, over **6,000** students study at the MUB, including nearly **500 international students** from **46 different countries** in the English Division.

The English Division was launched in 2004. After completing a 6-year programme, students earn the Doctor of Medicine (MD) degree.

The University's main administration is located in the beautiful 18th-century Branicki Palace, right in the city center, surrounded by a historic park and within walking distance of the teaching and hospital complex.

Our student-friendly location is one of the MUB's undeniable advantages!

The Medical University of Białystok also operates a top-tier teaching, academic, and research hospital, offering students an outstanding learning environment.

## RESEARCH AND OPPORTUNITIES

The Medical University of Białystok (MUB) is one of the most dynamic medical academies in Central and Eastern Europe, pursuing its innovative science policy for years. MUB is a precursor and leader in innovative large-scale research, focused primarily on innovative technologies associated with development of artificial intelligence in medicine, precision medicine and bioinformatics. MUB opened the first Artificial Intelligence in Medicine Centre in this part of Europe, generating superior and comprehensive databases from patients suffering from lifestyle diseases. MUB is the leader in quality biobanking of biological material obtained from lifestyle disease patients. The Medical University is conducting population studies as well, singular in this part of Europe, covering 10k inhabitants of Białystok (the Białystok Plus project).

Associated Partner of

**Medical University of Białystok -  
Associated Partner of  
EUNICE European University**

[umb.edu.pl/en](http://umb.edu.pl/en)

EUNICE partners are mostly medium-sized institutions located in cities with a good standard of living. All partner universities are not only internationally involved in leading-edge research, but are also strongly committed to training students and developing research that offers solutions to the challenges of societies and responds to their demands related to the sustainable economic development of their regions. All of EUNICE partners are therefore firmly rooted locally, but also share European values and a global perspective.

The Medical University of Białystok, which has been an associated partner of the European University EUNICE since 2023, has received funding for the project entitled: "valuEU – strengthening the potential of the Medical University of Białystok in the EUNICE European University".

The "valuEU" project increases the potential of the MUB to act within the European University EUNICE. The planned tasks in the project include:

- ✓ preparing and disseminating of joint scientific publications with researchers from the EUNICE Alliance;
- ✓ conducting interdisciplinary training for representatives of universities in the EUNICE alliance, delivered by highly qualified MUB's staff;
- ✓ organizing mutual exchanges of PhD students and staff between the MUB and its partners;
- ✓ running a promotional campaign on social media and promoting the MUB at the EUNICE booth during international conferences and educational fairs.

## EUROPEAN UNIVERSITY FOR CUSTOMISED EDUCATION

**10 universities from 10 different EU countries**

**Established in 2020**

**150,000 students & 15,000 staff members**

**1,000 study programs & 60 faculties**

### MEDICAL UNIVERSITY OF BIALYSTOK (MUB)

- ✓ Worldwide recognized diploma,
- ✓ Effective system of medical education and practical training,
- ✓ Small study groups, both in pre-clinical and clinical courses,
- ✓ Modern, well-equipped laboratories, hospitals and clinics,
- ✓ HD Medicine,
- ✓ Over 70 international agreements with Universities from all over the world,
- ✓ Developed and integrated community of international and Polish students,
- ✓ High standard dormitory rooms with internet access,
- ✓ 17 student organisations,
- ✓ Low costs of living.
